

MESSAGE FROM SECRETARIAT

It is our pleasure to welcome you to Valoris MUN 2026. As the Secretariat, we believe that a conference is more than speeches, motions, and resolutions; it is a space where ideas are challenged, perspectives are exchanged, and meaningful connections are built. This year, we invite you to step beyond the familiar and explore new arenas of thought, strategy, and leadership. Whether you find yourself in a diplomatic committee, a high-pressure simulation, or an unconventional arena, we hope you embrace every challenge with curiosity and conviction. Come prepared to research, question, negotiate, and most importantly, listen. Your voice has the power to influence the room, but your ability to understand others will shape the conversation. We look forward to seeing you at Valoris.

ABOUT US

Valoris Model United Nations is Meerut's largest school level diplomatic simulation conference, bringing together young leaders from across the region to debate, deliberate, and draft solutions to the world's most pressing challenges.

Founded with a vision to foster critical thinking, public speaking, and global awareness, Valoris MUN offers a platform where delegates step beyond textbooks and into the shoes of diplomats, policymakers, and changemakers.

With committees ranging from traditional UN bodies to innovative special agencies and a dynamic press corps, every participant finds a room that challenges their intellect and sharpens their perspective.

THEME AND MESSAGE

The universe has always represented the limitless pursuit of discovery — a **space** where boundaries are undefined, perspectives are constantly shifting, and the unknown invites us to look beyond what we already understand. Drawing inspiration from this spirit of exploration, Valoris uses space as a metaphor for the world of ideas: **every committee becomes a new orbit of thought**, every debate a collision of perspectives, and every delegate a signal capable of travelling far beyond the room in which it begins. In a world shaped by complex challenges, it is not enough to simply observe; we must question, engage, and understand the forces that shape the world around us. Valoris seeks to create an environment where young minds can challenge conventional thinking, encounter perspectives different from their own, and transform discussion into meaningful insight. Just as countless stars form constellations, individual voices come together to create something greater than themselves. **This year, we invite you to step beyond the familiar, explore the unknown, and discover the influence that thoughtful dialogue can have.** Because every conversation can become a catalyst, every perspective can illuminate something unseen, and every voice has the potential to travel further than it ever imagined.
